

# Airmate South America Data For Dynon SkyView

**Airmate, the leading free Electronic Flight Bag with 120,000 users worldwide, now provides its proven Aviation Database for your Dynon SkyView in South America. Covering the whole South America, AIRMATE Aviation Database is updated every 28 days at each AIRAC cycle.**

The yearly subscription to Airmate Aviation database for Dynon includes the following:

- Aviation database updated at each AIRAC Cycle and including more than 5,000 airfields and heliports, controlled and restricted airspaces, radio beacons, waypoints, in Argentina, Bolivia, Brasil, Chile, Colombia, Ecuador, French Guyana, Guyana, Paraguay, Peru, Suriname, Uruguay, Venezuela
- VFR charts in selected countries, including Brazil and French Guyana. Other countries will be added in the future.

*Database subscribers have an access to Airmate Web allowing them to download Aviation Database and charts. Just save them on an USB stick to load them on your SkyView unit.*
